

CaseStories/ **SCANDIC Hotel Narvik**

SCANDIC Hotel Narvik has a cool, Nordic look and the custom designed DW Colortec carpets play a crucial role in the entire expression of the hotel interior.

SCANDIC Hotel Narvik

Northern Norway's highest building stacked with custom designed Colortec carpets

The carpets in the SCANDIC Hotel Narvik play a crucial role in the entire expression of the hotel interior. Dansk Wilton has delivered custom designed Colortec carpets and area rugs in a demanding, yet fascinating project.

SCANDIC Hotel Narvik (former RICA Hotel) is Northern Norway's highest building with 18 floors giving the hotel a wonderful view of the city, the fjord "Ofotfjorden" and the mountains. The hotel is in a central part of town emphasizing the importance to embrace history.

SCANDIC Hotel Narvik has a stylish interior that reflects the exciting exterior of the hotel. All interior designs were created by Scenario Interiørarkitekter, Oslo. You will find luxurious and spacious guest rooms, meeting rooms, all-day restaurant and sky bar with panoramic terrace on the top floor - every area decorated with custom designed Colortec carpets from Dansk Wilton:

"It took a great deal of creative thinking to convert the initial design proposals from Scenario into functional carpet solutions. The result, however, speaks for itself. Dansk Wilton is proud of having been part of this truly demanding, yet fascinating design development process." - Ane and Anne Mette, Dansk Wilton Design Team

Cool and Nordic design carpets

The interior of SCANDIC Hotel Narvik has a modern look that plays on the local elements found in Narvik. Inspiration is drawn from nature with a neutral base colour and bright colour accents combined with wood. Large graphic patterns in vibrant colour combinations in both carpets and wall patterns against the wooden look, "breaks up" the tight style of the exterior of the building, creating a calm, warm and colourful atmosphere inside.
